Property owner David White noted that moving the meetings to an earlier time would impact the attendance of individuals that work out of town.

ORDER OF BUSINESS

C. City Utility Rates

Mayor Mark explained that she had placed this item on the agenda to make a formal request of the group reviewing the utility rates to provide their list of questions to the City.

Jeanne Rowden-Dansby and Earl Morrison each presented a list of questions to the City Council and staff.

Portola resident Larry Douglas explained that he didn't see any need for Lake Davis water and would like that to be at the top of the discussion.

Property owner David White commented that he felt the cost of water should be separate from the utility bill allowing the utility bill to go to the owner and the water usage to the tenant.

Mayor Mark excused herself from the meeting at 7:16 p.m.

A. General Plan Update/Mitigated Negative Declaration, Public Hearing

Planner Karen Downs explained that the public comment period for the General Plan update was now complete. She presented comments from Caltrans and the Fire Safe Council that the City has received following the last meeting. She noted that those comments would be addressed in the final document. She requested the City Council receive any additional public comment tonight and the consider adoption of Resolution No. 2111 approving the mitigated negative declaration and the General Plan review.

Mayor Pro Tem Larrieu opened the public hearing at 7: 20 p.m. There were no comments from the public. The public hearing was closed at 7:21 p.m.

Property owner Lori White asked for a definition of excess. It was explained that more than one inoperable vehicle would be considered excess.

Portola resident Larry Douglass commented that he is concerned with over regulation.

Property owner David White noted that there are rusty inoperative vehicles all over town and he for one doesn't want to live in a City that has them all over town. He suggested a sure way to get people to leave town was to allow for more rusty inoperative vehicles. He applauds the City Council for trying to take control.

D. Fire Protection Services

City Manager Leslie Tigan explained that this item had been placed on the agenda to allow for discussion regarding various concerns that had been brought to the attention of the City following the recent string of fires in town. She outlined three areas of concern; 1) Response time; 2) Fire Susceptibility and 3) Improvement of Fire Safety.

1) *Response time*

Ms. Tigan explained that if the Council wished to gain an understanding of the Fire Department's response time they would first need to provide a clear definition of a time from one action to another, would you start with the time the call came to dispatch, the time the Fire Dept. was paged, or something else and would the other end by the time firefighters arrive at the station, or the time someone is on scene. She also explained that the only way to gather factual data would be to have someone listen to the actual 911 calls; this would be time consuming for staff. She requested direction from the City Council if they wished to pursue this research.

Councilmember Weaver questioned what was being done about asbestos removal from the burn sites. It was explained that the responsibility for this was imposed upon the property owner and the contractor performing the clean-up.

Property owner Lori White asked if there was anything the public could do to assist with response times.

2) *Fire Susceptibility*

Ms. Tigan explained that she felt this issue could be incorporated within the preparation of the City's Local Hazard Mitigation Plan (LHMP). She noted that City staff had discussed the issue with the consulting firm that would be completing the LHMP and they are willing to include this issue in the plan. When developing the plan the consultants will be holding public meetings allowing ample time for the public to comment and make suggestions. The outcome could include some type of fire inspection program.

3) *Improvement of Fire Safety*

Ms. Tigan explained that she had earlier meetings with Beckwourth Fire Chief Greg McCaffrey to discuss the possibility of some arrangement that would allow the two departments to work together in an effort to provide better service to both districts. She requested the City Council consider authorization for staff time, including that of the City Attorney to move forward with these discussions. She also requested one member of the City Council be appointed to attend the discussions and suggested Councilmember Weaver.

After further discussion it was the consensus of the City Council to direct staff to move forward with discussion and for Councilmember Weaver to be included in the meetings.

E. Special Recall Election

City Clerk Leslie Tigan explained that following the adoption of Resolution No. 2109 on December 14, 2011 it had been determined that the nomination period for the special recall election should be extended to January 26, 2012. She presented Resolution No. 2112 for consideration.
